Mountains of Gold, Mountains of Silver: The Mining Genius of George Hearst (Chronicles of Western Pioneers) Willard Thompson

NOTE: This is a short biography based on original research. Few men struck it rich in the western mines in the last half of the 1800s. Most returned home poor, disillusioned, with muscles aching from the back breaking work. But one man from Missouri, barely educated, with a widowed mother and sister to support, hit pay dirt time after time in mining camps scattered across the West. He started out with next to nothing, riding a horse across the country to get to the California gold fields, and ended a United States Senator. In the process he acquired mountains of gold, silver and copper, building one of the largest mining fortunes the world has ever seen.
