This introspective work flies in the face of conventional literature and thinking. It is incendiary, inflammatory and will probably lead to a rise in irrational hatred and fear.

It is a book that will worry to the point where some readers might question and confront their own suppressed prejudices and bigotry. But to deny the absolute right of expression to the writer would be akin to killing the messenger, just because he is the bearer of bad news.

If there is an argument for not reading this book, it perhaps lies in the fact that it is totally unresearched and relies purely on the writer's own accumulated general knowledge, instincts and personal experiences.

It is an explicit, brutal and shocking account of one man's professional, spiritual, social and cultural journey.

Not for the faint hearted.

Author's Critique:

Why I've given myself the title of "Editor"

Well, the fact is that I edited this book myself. I did not trust anyone else to do it because they would have destroyed my thought process and tried to change what I perceived at the time to be right and correct in my mind.

All honest writers must accept responsibility for their published work and I do not put my name to this novel out of a sense of appropriation, but to be able to respond to any and all criticisms.

If there are bad things, I'll take the blame. If there are good things, I'll gladly accept praise. If this book is considered bad, I'll be forced to recognise it and I would not wish to pass it off as better than it is.

This book was not intended for worldwide circulation, although if it turns out to be, I shall not complain, but I suspect that it will suit very few readers. The style will probably annoy people of literary taste and the contents will alarm the more severe social critics and all my sentiments will be outside the nature of those who do not believe in the fractured virtues of the just.

It will displease those devoted to political correctness and those liberal thinking people who despite all the evidence pointing to the relentless force of evil, will find that men cannot be so evil as to be beyond redemption. It will shock gallant men, annoy and scandalise honest women.

It was written for me, but for sure, it will satisfy the appetites of those who seek to find the truth through integrity. It will be useful to those who, in a climate of social dysfunctionality, have retained a love for honesty.

Cheers
