## **Doing Science: Innovative Curriculum for the Life Sciences** Neal A. Glasgow

Problem-based, student-centred learning is the key to implementation of the national standards for science education in the United States. Students learn science best by `doing' science, by identifying real-world problems and designing projects that lead to possible solutions.

Based on extensive experience in an award-winning US high school science programme, this book provides a step-by-step guide for designing problem-based learning in the life sciences.
