The Christmas Tree Bear: A Bear Shifter Paranormal Holiday Romance Rosie Lynne

It was like this: Charlotte “Charlie” Caldwell wanted to live somewhere not her parents’ house, not her sister’s house, and not her friends’ couches. The problem was that she had a very expensive degree from a top-notch university and all the debt that went with it. And, sadly, not a decent enough job to both live on her own and pay off those expensive student loans.

That's why she took up an extra part-time job at Christmas Tree Town, a tree farm and orchid that is turned into Santa's village every year around the holidays to help the families all over the area celebrate the holidays.

Willis Barnett inherited the family farm after his father passed away, and with his mother, they hope to make Christmas Tree Town a big profit this year to help keep the family business in the black. He only wants to run the farm then run as his bear through the fields and forests. He wasn't expecting to find The One, his mate, dressed up like Santa's Elf Helper while doing the daily chores.

With the help of family and friends, and one not so helpful ice storm, maybe they can make this work and start of the new year just right.

A stand alone, hot & steamy, holiday romance. HEAs only, no cliffhangers.
