**Deaf People: Evolving Perspectives from Psychology, Education, and Sociology** Jean Andrews, Irene W. Leigh, Mary T. Weiner

*Deaf People: Evolving Perspectives in Psychology, Sociology, and Education* is an examination of the psychology of the Deaf community through history, current topics, and the personal experiences of the three deaf authors. This text provides a unique perspective in that the topic—psychology and deaf people—is typically presented through the hearing person's perspective. The deaf person's perspective as this book demonstrates is important because it is the deaf community that is most impacted by the decisions professionals make, whether in school in the clinic or in the family. Case studies are presented throughout the text to demonstrate real life issues and end of chapter study questions help reinforce chapter concepts.
