Accelerated Learning: Fastest Way to Learning Anything Using Deconstruction Method

Jonas Jishu

Accelerated Learning: Fastest Way to Learning Anything Using Deconstruction Method Jonas Jishu Accelerated Learning: Fastest Way to Learning Anything Using Deconstruction Method is a well rounded introduction to the principles of acquiring skills effectively and fast. It shows you how to dismantle what is initially a complex task and isolate its simple parts for ease of learning. The book gives you a range of techniques to pick from and use in learning new tasks. It also guides you on how to enhance your memory so that you can retain whatever you learn for a long time.

Whereas what the book teaches is not entirely strange but rather better packaged for consumption, the book also highlights some methods that have been in use for centuries now but which are actually not as effective as everyone thought. Gladly, even as such techniques are highlighted, the book volunteers alternative methods that are effective and relevant to today's hectic way of life. At the end of the day, you will look at learning and acquiring skills in positive light. In fact, you will be eager to put the learning techniques shown here into practice.

In this book you will learn:
• How to simplify tasks during your learning process
• How to segregate what is necessary to learn from the bulk of unhelpful data; information; and also skills
• How to apply the backward learning technique to enhance learning and memory
• How to avoid rigidity in learning and remembering; and enhancing your ability to acquire skills naturally
• How to keep your brain at tiptop shape
• Best ways to boost your memory
