Murder By The Springs is a book about an unsolved murder that took place in a small town in Tennessee in the year 1940. Two sisters were murdered in their Victorian Mansion along with their 16 year old errand boy. The errand boy was found with the murder weapon which led to the theory it was a murder suicide. In 2001, the case was reopened after a mystery witness came forward with information that eventually cleared the boy. This change of events has shrouded the mystery with even more rumors, theories and questions about what might have happened.
