## **Essentials of Radiologic Science Text & Workbook Package** Robert A. Fosbinder BA RT(R)

Lippincott Williams & Wilkins is proud to introduce **Essentials of Radiologic Science**, a core, comprehensive textbook for radiologic technology students. Focusing on the crucial components and minimizing extraneous content, this text will help prepare students for success on the American Registry of Radiologic Technologists Examination in Radiography and beyond into practice. Topics covered include radiation protection, equipment operation and quality control, image production and evaluation, and patient care. This is a key and crucial resource for radiologic technology programs, focusing on the most relevant information and offering tools and resources to students of multiple learning types. These include a full suite of ancillary products, a variety of pedagogical features embedded in the text, and a strong focus on the practical application of the concepts presented.

An ideal accompaniment for **Essentials of Radiologic Science**, this workbook provides the student with additional practice in applying theories covered in the text. Designed to provide students with reinforcement and practice in the topics they've learned, this workbook also serves as preparation for the Registry Exam and includes Registry-style review questions.

This is a package of both the textbook and workbook.
