Cacti of the Trans-Pecos and Adjacent Areas (Grover E. Murray Studies in the American Southwest)

A. Michael Powell, James F. Weedon

A Southwest Book of the Year * 2005 Southwest Book Award "[A] monumental study." —Review of Texas Books "A reliable and handy general reference for those with an interest in cacti inside and outside this region. Recommended." —Choice "These authors have . . . provided the world with the much needed scientific clarification on this family of succulent plants that humans have loved and hated for thousands of years." —Sida "Information: Wow! . . . For both lay readers and for researchers looking for lots of data about the cacti of this rich flora, this book offers fascinating details presented in a very readable fashion." —Cactus and Succulents Journal "This will be the standard reference for decades to come." —Southwest Books of the Year Of the 132 species and varieties of cacti in Texas, about 104 of them occur in the fifteen counties of the Trans-Pecos region. This volume includes full descriptions of those many genera, species, and varieties of cacti, with sixty-four maps showing the distribution of each species in the region. The descriptions follow the latest findings of cactus researchers worldwide and include scientific names; common names; identifying characters based on vegetative habit, flowers, fruit, and seeds; identification of flowerless specimens; and phenology and biosystematics. The introduction—full of details about the biology and morphology of the family Cactaceae, the uses of cacti, and the horticulture and conservation of cacti—is an important reference for general readers. More than three hundred beautiful full-color photographs of the cacti in flower and in fruit, all cross-referenced to their description in the text, highlight the book. A glossary of cactus terms, an exhaustive list of literature, and a thorough index complete the book.

From reader reviews:

Anna Williams:

Do you have favorite book? For those who have, what is your favorite's book? Publication is very important thing for us to understand everything in the world. Each publication has different aim as well as goal; it means that book has different type. Some people truly feel enjoy to spend their a chance to read a book. They can be reading whatever they have because their hobby will be reading a book. Think about the person who don't like reading through a book? Sometime, man feel need book when they found difficult problem or even exercise. Well, probably you will require this Cacti of the Trans-Pecos and Adjacent Areas (Grover E. Murray Studies in the American Southwest).

Mamie Bostic:

Book is actually written, printed, or outlined for everything. You can learn everything you want by a guide. Book has a different type. To be sure that book is important point to bring us around the world. Adjacent to that you can your reading talent was fluently. A book Cacti of the Trans-Pecos and Adjacent Areas (Grover E. Murray Studies in the American Southwest) will make you to become smarter. You can feel considerably more confidence if you can know about every thing. But some of you think that open or reading a book make you bored. It is not necessarily make you fun. Why they could be thought like that? Have you seeking best book or suitable book with you?

Jose Holmes:

As a student exactly feel bored for you to reading. If their teacher questioned them to go to the library as well as to make summary for some guide, they are complained. Just small students that has reading's spirit or real their leisure activity. They just do what the instructor want, like asked to go to the library. They go to there but nothing reading really. Any students feel that examining is not important, boring as well as can't see colorful pics on there. Yeah, it is for being complicated. Book is very important for you personally. As we know that on this era, many ways to get whatever we wish. Likewise word says, ways to reach Chinese's country. So , this Cacti of the Trans-Pecos and Adjacent Areas (Grover E. Murray Studies in the American Southwest) can make you experience more interested to read.

Kerry Maye:

What is your hobby? Have you heard which question when you got college students? We believe that that concern was given by teacher to their students. Many kinds of hobby, Every individual has different hobby. And you know that little person including reading or as studying become their hobby. You must know that reading is very important and book as to be the matter. Book is important thing to incorporate you knowledge, except your own personal teacher or lecturer. You will find good news or update in relation to something by book. A substantial number of sorts of books that can you decide to try be your object. One of them is Cacti of the Trans-Pecos and Adjacent Areas (Grover E. Murray Studies in the American

Southwest).
