Predator: Flesh And Blood Michael Jan Friedman, Robert Greenberger

In 1987, the first Predator movie was released, garnering an Oscar, huge audiences and an instantly loyal fan base. Five years later came the first of the best-selling Predator novels. What accounted for the success of the series? It combined seemingly disparate genres - science fiction, action and horror - with unforgettable characters for a fresh experience. In this novel by New York Times bestsellers, Michael Friedman and frequent writing partner Robert Greenberger, humans have all but destroyed the earth, creating an opportunity for unscrupulous moneymakers to take advantage of the destruction. One family, the Ciejek clan, have made their fortune exploiting Earth's misfortunes. But with power comes corruption. The members of the Ciejek clan are at each other's throats, enlisting the help of the fearsome Predators to settle the score. When the Predators arrive, however, the brutality they unleash is far beyond what the Ciejek family could have imagined.
