## **Into the Cannibal's Pot: Lessons for America from Post-Apartheid South Africa** Ilana Mercer

Into the Cannibal's Pot: Lessons for America from post-Apartheid South Africa is a polemical work anchored in history, reality, fact, and the political philosophy of classical liberalism. It is a manifesto against mass society, arguing against raw, ripe, democracy, here (in the US), there (in South Africa), and everywhere. Into the Cannibal's Pot follows Russell Kirk's contention that true freedom can be found only within the framework of a social order. It is a reminder that, however imperfect, civilized societies are fragile. They can, and will, crumble in culturally inhospitable climes. The tyranny of political correctness, so unique to the West plays a role in their near-collapse. Advanced societies don't just die; they either wither from within, or, like South Africa, are finished off by other western societies. Ilana Mercer delivers a compelling book; it is required reading for thinking people who care about the destiny of western civilization.
