Are your kids misbehaving? Turn conflict into cooperation today!

This book and kit is a positive discipline tool that uses child psychology and real world scenarios to teach children accountability and life-skills, while providing relief for parents – and kids actually like it!

My name is Angela and I am a single mom of 3 children. As a parent, one thing I should have learned, is that **freaking out on kids is not the way.**

While I began to understand this about parenting, I was just too busy. I had a 40+ hour per week job. On top of that, I had to do EVERYTHING, and I mean everything: doctor and dentist appointments, school meetings and functions, emergency room visits and chores – attempting to get the kids to do their chores was a chore in itself! Then we had things like volleyball, basketball, dance, grocery shopping. Wait, grocery shopping? I forgot to pick up toilet paper from the store today! Crap! Anyway, I had to do all of this while trying to maintain a job and income for our household and trying to fit in some actual quality time in with the kids. Not to mention me time- Wait... Me time? What's that?!

I was in this exhausting juggling act of 360 degree parenting. My kids were getting out of control. There was very little structure, and a whole lot of disrespect and backtalk from the kids - not to mention the ever re-occurring sibling fights and arguments. It was tough being the only disciplinarian in the household with no one to call on for backup. I was suffering from extreme anxiety and life stresses; the kids and I were stressing each other out!

Throughout all of this, I learned a huge lesson about parenting...

Single parent or not, it's on me to GET - IT - TOGETHER

It's easy to blame the father for not being there, or blame the media or other kids in our neighborhood or school for my children's behavior. But the truth is, it all comes down to us knowing what to do as parents.

Raising kids isn't easy. Like they say, "Kids don't come with a handbook". While kids might not come with a handbook, surprisingly mine helped me *write* a book and create a system that provides a win-win solution by giving us all what we want!

Discipline doesn't have to be a parent vs. kid battle.

There is a way out, and the way out is to make your child accountable in a way that *doesn't* involve a power struggle.

As adults, it's hard to remember what it was like to be a kid, or to know how capable kids really are. But the

truth is, our kids can do way more than we give them credit for. If we're going to parent with love and logic, we should be motivating and challenging our kids to aim higher and strive more. Once we get them on that track, things will get a lot easier for everyone.

This is why I wrote this book "Mom Dollar Money". Despite the title, this system isn't inexorably about money; it's more so about children learning a healthy balance of how life works, with not just rewards, but also consequences and, most importantly, self-discipline.

This system breaks down the things we do as an adult, into something that children can understand. With this system, children will feel more in control of getting what they want, while you gain control of getting what you want- especially your sanity!

There is a difference between discipline and punishment, and with this system, children can learn the difference between the two, and why you do it, which can decrease resentment from the child.

Complete with a foundation to deal with daily conflicts, and a proven system to motivate good behavior in your child, "Mom Dollar Money" gives you a new approach to eliminate power struggles and give children life-skills that will last a lifetime.
