As a college student, I exactly feel bored to reading. If their teacher expected them to go to the library or even make a summary for some reserve, they are complained. Just little students that have reading's heart and soul or real their interest. They just do what the professor wants, like asked to the library. They go to right now there but nothing reading really. Any students feel that studying is not important, boring as well as can't see colorful images on there. Yeah, it is to become complicated. Book is very important for yourself. As we know that on this era, many ways to get whatever we would like. Likewise, words say, ways to reach Chinese's country.
