The Concept of Mind: 60th Anniversary Edition

Gilbert Ryle

The Concept of Mind: 60th Anniversary Edition Gilbert Ryle

First published in 1949, Gilbert Ryle's *The Concept of Mind* is one of the classics of twentieth-century philosophy. Described by Ryle as a 'sustained piece of analytical hatchet-work' on Cartesian dualism, *The Concept of Mind* is a radical and controversial attempt to jettison once and for all what Ryle called 'the ghost in the machine': Descartes' argument that mind and body are two separate entities. This sixtieth anniversary edition includes a substantial commentary by Julia Tanney and is essential reading for new readers interested not only in the history of analytic philosophy but in its power to challenge major currents in philosophy of mind and language today.
